

# With Your Lawn In Mind

CUT ALONG THIS LINE

We use a unique combination of synthetics, humic acid and naturally occurring nutrients. Soil Science Products® fertilizers do not contain animal wastes or sewage sludge products, giving vegans and concerned citizens a clean choice.

Soil Science Products® fertilizers are formulated to provide plant nutrients to promote and enhance plant growth. Our products include humic shale ore deposits formed by the physical breakdown of ancient plant life. The deposits are rich in humic acid, which may aid in the uptake of micronutrients.

## EMERALD CITY™ 8-0-0

**FOR USE ON ALL:** Turf, grasslands and non-blooming ornamentals.

BROADCAST APPLICATION RECOMMENDATIONS:	<ul style="list-style-type: none"> <li>• Apply 10 - 15 lbs per 1,000 sq. ft.</li> <li>• Water in after application.</li> <li>• Apply every 8 - 10 weeks, as needed, through-out the growing season.</li> </ul>
--	--

ORNAMENTALS:	<ul style="list-style-type: none"> <li>• Apply 1/2 - 1 cup to plants up to 3' tall;</li> <li>• 1 - 2 cups to plants 3' - 5' tall;</li> <li>• 2 - 3 cups to plants 5' - 8' tall</li> <li>• Water in after application.</li> <li>• Apply every 8 - 10 weeks, or as needed, through-out the growing season.</li> </ul>

### TURF & GRASSLANDS COVERAGE CHART & SPREADER SETTINGS:

Application rates of 10 pounds (lbs) per 1,000 square feet (sq. ft.) (40' x 25'):

Spreader Model:	Setting:
Scotts® Deluxe Edgeguard Broadcast spreader	10
Scotts® Accugreen 3000 Drop spreader	10

Settings may vary due to age and condition of spreader, types of terrain, pass width and individual walking speed. We recommend that you calibrate your spreader to apply 1 lb (or 2 cups) for 100 sq. ft. (10' X 10').

Application rates of 15 pounds (lbs) per 1,000 square feet (sq. ft.) (40' X 25'):

Spreader Model:	Setting:
Scotts® Deluxe Edgeguard Broadcast spreader	14.5
Scotts® Accugreen 3000 Drop spreader	14.5

Settings may vary due to age and condition of spreader, types of terrain, pass width and individual walking speed. We recommend that you calibrate your spreader to apply 1.5 lbs (or 3 cups) for 100 sq. ft. (10' X 10').

CONIFERS:	<ul style="list-style-type: none"> <li>• Apply 1/2 - 1 cup per inch of trunk diameter around tree dripline.</li> <li>• Water in after application.</li> <li>• Apply every 8 - 10 weeks, or as needed, through-out the growing season.</li> </ul>
